

Marvel's Kevin Feige Reveals Phase 5 and 6 Plans, as well as New 'Avengers' Films at Comic-Con

Kevin Feige, head of Marvel Studios, returned triumphantly to Comic-Con on Saturday and was greeted like a hero. The CEO disclosed two Avengers films as well as the official title for the upcoming trilogy he's been working on. The Infinity Saga, which finished with Avengers: Endgame, contributed to Marvel becoming the most valuable brand in Hollywood. The next collection of projects is known as the Multiverse Saga.

"I'm unbelievably excited," Feige remarked, adding that there were times when he doubted if he'd ever return to the -Con, which was closed due to the COVID-19 epidemic in 2020 and 2021.

The major news was the release of two Avengers films barely months apart. Avengers: The Kang Dynasty will be released on May 2, 2025, followed by another Avengers film months later. Avengers: Secret Wars will be released on November 7, 2025. No directors were announced, but Endgame filmmakers the Russo brothers have long shown interest in directing a Secret Wars feature.

Feige told after the event that the Russos were not engaged with Secret Wars.
He kicked off his panel with some breaking news in a classic Feige manner.
Black Panther: Wakanda Forever (Nov. 11) will wrap out the studio's Phase 4 projects, with Ant-Man and the Wasp: Quantumania (Feb. 17, 2023) kicking off Phase 5.

Feige revealed several release dates (or approximate dates) for his Disney+ shows, including Loki season two in summer 2023; the Hawkeye spinoff Echo debuting on Disney+ in summer 2023; Ironheart streaming in the fall of 2023; Mahershala Ali's Blade movie opening in theatres Nov. 3, 2023; and the newly titled Kathryn Hahn/WandaVision spinoff Agatha: Coven of Chaos bowing on Disney+ in Winter 2023.
Furthermore, he revealed the title and release date for Anthony Mackie's Captain America film, Captain America: New World Order. It is scheduled to open on May 3, 2024. He also co-wrote the title for Charlie Cox's return to Daredevil, Daredevil: Born Again, a Disney+ 18-episode series. The new Daredevil, starring Vincent D'Onofrio as Kingpin, is set to premiere in spring 2024. Meanwhile, Thunderbolts, a film about villains, will end Phase 5 on July 26, 2024. Fantastic Four Phase 6 will begin on November 8, 2024, according to Feige.
Post-Endgame, Phase 4 was about "resetting the MCU and meeting all these new characters," according to Feige.
When Feige last confronted the 6,500-person Hall H, the world looked drastically different. In July 2019, the executive detailed the studio's Phase 4 plans following Avengers: Endgame, which included extensive theatrical and streaming releases.

Then the coronavirus struck, closing cinemas and altering Marvel's release schedule. For over two years, there were no Marvel movies, but things are back on track, and Marvel is busier than ever.
